Payments for every parking environment

QP QuickPay is the pay-by-cell solution that makes mobile payments easy for parking operators and their customers. With QP QuickPay, you get powerful payment, enforcement and marketing tools. And your customers will love the fast, convenient service you're able to provide.

Grow revenue, cut shrinkage and delight your customers with QP QuickPay, the only mobile parking payment platform that works everywhere:

Highlights

- Apps for iOS, Android, HTML5 (Windows & Blackberry), text and IVR
- Cloud-based loyalty programs and special discounts
- Easy integration with your existing PARCS systems
- Hardware agnostic, cost-effective and easy to deploy
- Industry-leading reliability and support
- QP WebOffice to manage rates and view reports from anywhere
- Flexibility to use your own merchant account
- PCI DSS Level 1 Compliant

About QuickPay Corp

Founded in 2010, Silicon Valley-based QuickPay Corp. is a premier provider of mobile parking payment solutions. Our experienced management team has proven track records in both parking and high-tech. The company is backed by successful investors and technology leaders, including Fontinalis Partners, co-founded by Ford Motor Company executive chairman Bill Ford.
