

VALUE ADDED SERVICES

The Client Services Division, headed up by David Lambeck in the Corporate Office, offers many value added services including preparing custom marketing materials such as brochures, fliers, posters, and program theme design. Additionally the Client Services Division provides information services such as web page and informational graphic design. The most useful and popular services provided are the detailed financial and statistical analysis such as long term budgeting & planning, facility feasibility analysis, utilization analysis, revenue generation analysis and marketing information analysis.
