Subject: RE: Trellint - Public records request

Hi Shirley,

Thanks again for the help here. Apologies, please see the corrected request.

Does the City of St. Louis currently use a parking citation processing software solution?

- a. If yes, please provide a copy of the current contract and all its related addendum for your current parking citation processing software.*
- b. Please provide a copy of all January 2024 – December 2024 invoices related to your parking citation processing services.*

Best,
Jasen
